

## VP FINANCE

2021-2022 was a fully operational year after a few years of restricted track and field, which has been rewarding and fun for all of our athletes and all the clubs involved.

We finished the year with an increase in our revenues over expenses, with the continued support of the clubs involved, our grant revenues and good expense management by the staff of Saskatchewan Athletics.

Saskatchewan Athletics will continue to follow our vision to develop the widest participation and highest proficiency amongst the members of the Association. We will continue to provide financial assistance for the enhancement of Athletics in grassroots and youth categories, high performance development leading to Provincial/National/International competitions.

We will continue to promote all levels of Track and Field for Athletes, Officials, Coaches and Volunteers in the upcoming year with the financial assistance that is required by our mandate.
